# AMERICA THE BEAUTIFUL Glorious Images Set to Enchanting Music

## AMERICA THE BEAUTIFUL: The National Forests of Utah

View DVD #2081 - List Price \$14.98

**America The Beautiful: The National Forests of Utah** is a wonderful montage of Utah's magnificent western terrain, from the dry desert ground to the grand peaks of mountaintops and the beautiful animals of the wild. A medley of spectacular footage featuring some of Utah's fifteen million acres of national forests that spread along the state's 53 million acres of land with inspiring views of many of the 48 species of trees that cover a third of the state.

While being entranced by the lovely images moving across the screen, the background is set to the **superb sounds of classical music** by Rachmaninov, Gounod, Adam and other distinguished and renowned composers. The breathtaking scenes and delightful classical sounds are a pleasure for the eyes and ears.

## AMERICA THE BEAUTIFUL: The Natural Splendor of Florida

View DVD #2082 - List Price \$14.98

**America The Beautiful: The Natural Splendor of Florida** is a voyage of sight and sound into Florida's stunning seascapes, landscapes and wildlife. The stimulating soundtrack of Grammy Award nominees and Emmy Award Winners ***Emerald Web*** sets the mood while journeying through Florida's vast natural beauty. The entrancing footage of exotic flowers, beaches, everglades and wild animals captivates audiences.

This DVD captures some of the many indigenous species of flora, views of the rare and endangered Florida Panther, brilliant pink flamingos gathering on the sand dunes, scenes of the gentle yet also endangered "dancing" manatees, and the beauty of the ocean at sunset. **America The Beautiful: The Natural Splendors of Florida** will delight and remind the viewer of just how breathtaking the American landscape can be.
